

SoilMath::PSD::BasicCalculatePSD

```
graph LR; A[SoilMath::PSD::BasicCalculatePSD] --> B[SoilMath::PSD::DetBin]; A --> C["SoilMath::Stats< double, double, long double >::getCFD"]
```

The diagram illustrates two function calls originating from the `SoilMath::PSD::BasicCalculatePSD` function. Two blue arrows point from the right side of the `BasicCalculatePSD` box to the left side of the `DetBin` and `getCFD` boxes.

SoilMath::PSD::DetBin

SoilMath::Stats< double,
double, long double >
::getCFD
