

QCPFinancial::setData

```
graph LR; A[QCPFinancial::setData] --> B[QCPFinancial::data]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text "QCPFinancial::setData". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "QCPFinancial::data". Both boxes have a black border.

QCPFinancial::data
