

QCPPlotTitle::deselectEvent

```
graph LR; A[QCPPlotTitle::deselectEvent] --> B[QCPPlotTitle::setSelected]; B --> C[QCPPlotTitle::selected];
```

The diagram illustrates a sequence of three operations related to the QCPPlotTitle class. It consists of three rectangular boxes connected by arrows. The first box, labeled 'QCPPlotTitle::deselectEvent', is shaded gray. An arrow points from this box to the second box, labeled 'QCPPlotTitle::setSelected', which is white. Another arrow points from the second box to the third box, labeled 'QCPPlotTitle::selected', which is also white. All boxes have a black border.

QCPPlotTitle::setSelected

QCPPlotTitle::selected
