

QCPFinancial::setWidth

```
graph LR; A[QCPFinancial::setWidth] --> B[QCPFinancial::width];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box has a light gray fill and a black border, containing the text 'QCPFinancial::setWidth'. A dark blue arrow points from the right side of this box to the left side of the right box. The right box has a white fill and a black border, containing the text 'QCPFinancial::width'.

QCPFinancial::width
